

# PLASSON pushfit

## Plasson UK Ltd

Plasson's comprehensive range of solutions for connecting PE pipe can be found in over 80 countries world-wide.

The combination of Plasson's high quality products and first class customer service make it a world leader in the production of plastic pipe fittings.

## Applications

- Domestic
- Water Utilities
- Commercial
- Industrial
- Agricultural
- Building
- Plumbing

## Key Benefit

Plasson pushfit fittings provide easy connectivity of Polyethylene (MDPE) pipe to a variety of plumbing pipe materials.

Plasson pushfit is a range of innovative push-fit fittings that provide connectivity of Polyethylene (MDPE) pipe to a variety of plumbing pipe materials. Inserting the pipe up to the fitting stop creates both seal and grip on the pipe.

Pushfit is a 16 bar rated, WRAS approved fitting for MDPE, Imperial PE and Copper/PEX/PB pipe when used with an appropriate liner. It provides a drip tight seal even at low or negative pressures.

Pushfit is compact & has an attractive design making this fitting ideal for the plumbing market, where space is limited & appearance is crucial.

Pushfit is simple to assemble ~ simply push to fit ~ makes both the professional & occasional user's job easier whilst retaining the famous Plasson reliability.

## Key Features

- Range of fittings from 20 mm - 63mm
- Assembly tools not required, Simply Push to Fit
- Compact size allows assembly in confined spaces
- Provides connectivity of Polyethylene (MDPE) pipe to MDPE, Copper, PB, PEX and imperial pipe
- Fully demountable
- Fully end loaded performance so no need to restrain joints
- Lightweight and maintenance free
- 50 year design life
- Tamper resistant
- Pipe liners sold separately. Plasson's standard 7950 pipe liner fits both the pushfit and mechanical range.
