

Compact Turkey Drinker

Turkey Drinker

**Complete Range of Watering Systems**  
For Adult Turkeys And Turkey Poults

**Plasson's Turkey Drinkers**

Plasson makes the world's most reliable poultry drinkers - the "standard of the industry". For more than 50 years, no competitive drinker has been able to match Plasson's features and benefits.

The Plasson Turkey Drinkers features a large bell trough and heavy duty spring designed especially to accommodate large Adult Turkeys.

The Plasson Turkey Drinkers are made of a rugged high-impact plastic, formulated to withstand the ravages of the active turkey house for many years.

The unique feature of the Plasson Turkey Drinkers is the ballast bottle, which acts independently of the bell and eliminates wear on the valve mechanism.

Find out how you can water your flocks from day old Poults to adult birds with Plasson Drinkers, for fool - proof profit making performance.

Plasson drinkers are supported by a worldwide network of authorized distributors who provide expert installation, full service and a complete line of Plasson products and original spare parts.

When using bell drinkers for Poults, we recommend the use of Breeder Drinker or Broiler Drinker. For Adult Turkeys we recommend the use of Turkey Drinker or Compact Turkey Drinker.

**For Turkey Poults**

## Turkey Heavy Finish - THF

Plasson's Turkey Heavy Finish releases fresh water by the slightest touch, supplying your Adult Turkeys with all the water they require.

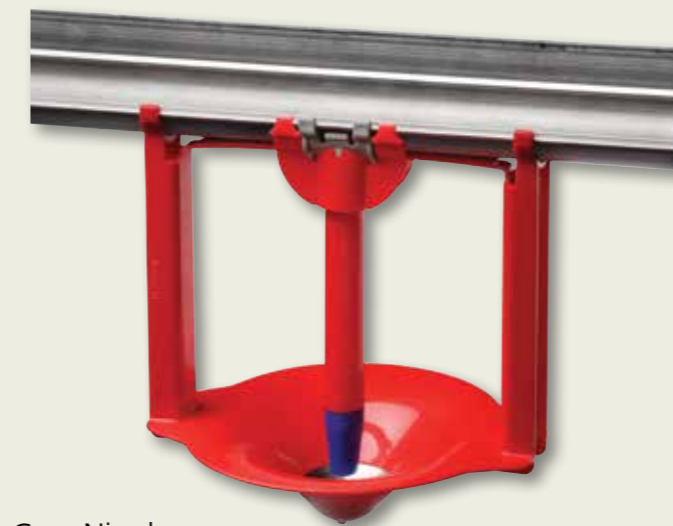

Suitable for turkeys up to 22Kg (48lbs)

### With Plasson's THF you can ensure:

- Constant supply of fresh water
- A uniform and heavy weight flock
- Lower mortality
- Drier litter
- Healthier birds
- Cups are kept clean through natural drinking (No need of cup cleaning)

### General Guidelines:

- Ideal for Adult Turkey Hens and Toms
  - 25 – 35 Turkey Hens per THF
  - 25 – 30 Turkey Toms per THF
- Recommended Nipple to install with THF – Plasson Grey Nipple

## Super Easy Start Adjustable - SESA

Plasson's Super Easy Start Adjustable supplies fresh water in the mini bowl with a spring mechanism that ensures a constant supply of water.

The water level can be adjusted according to need.

### With Plasson's SESA you can ensure:

- Water level according to the poults requirements
- A uniform and heavy weight flock
- Lower mortality
- Drier litter
- Healthier birds
- More space available per bird
- Cups are kept clean through natural drinking (No need of cup cleaning)

### General Guidelines:

- Ideal for Turkey Poults from Day 1 to 8 weeks
  - 25 – 30 Turkey Poults per SESA
- Recommended Nipple to install with SESA – Plasson Grey Nipple
- For subsequent growth stages, Plasson's Turkey Heavy Finish is recommended.
